features**

Inform & Go Paperless

- A abundance of information about the hotel facilities, special offers, and local attractions at guests' fingertips.
- All information normally printed in guestroom compendia may be digitized and current – thus saving thousands in printing.

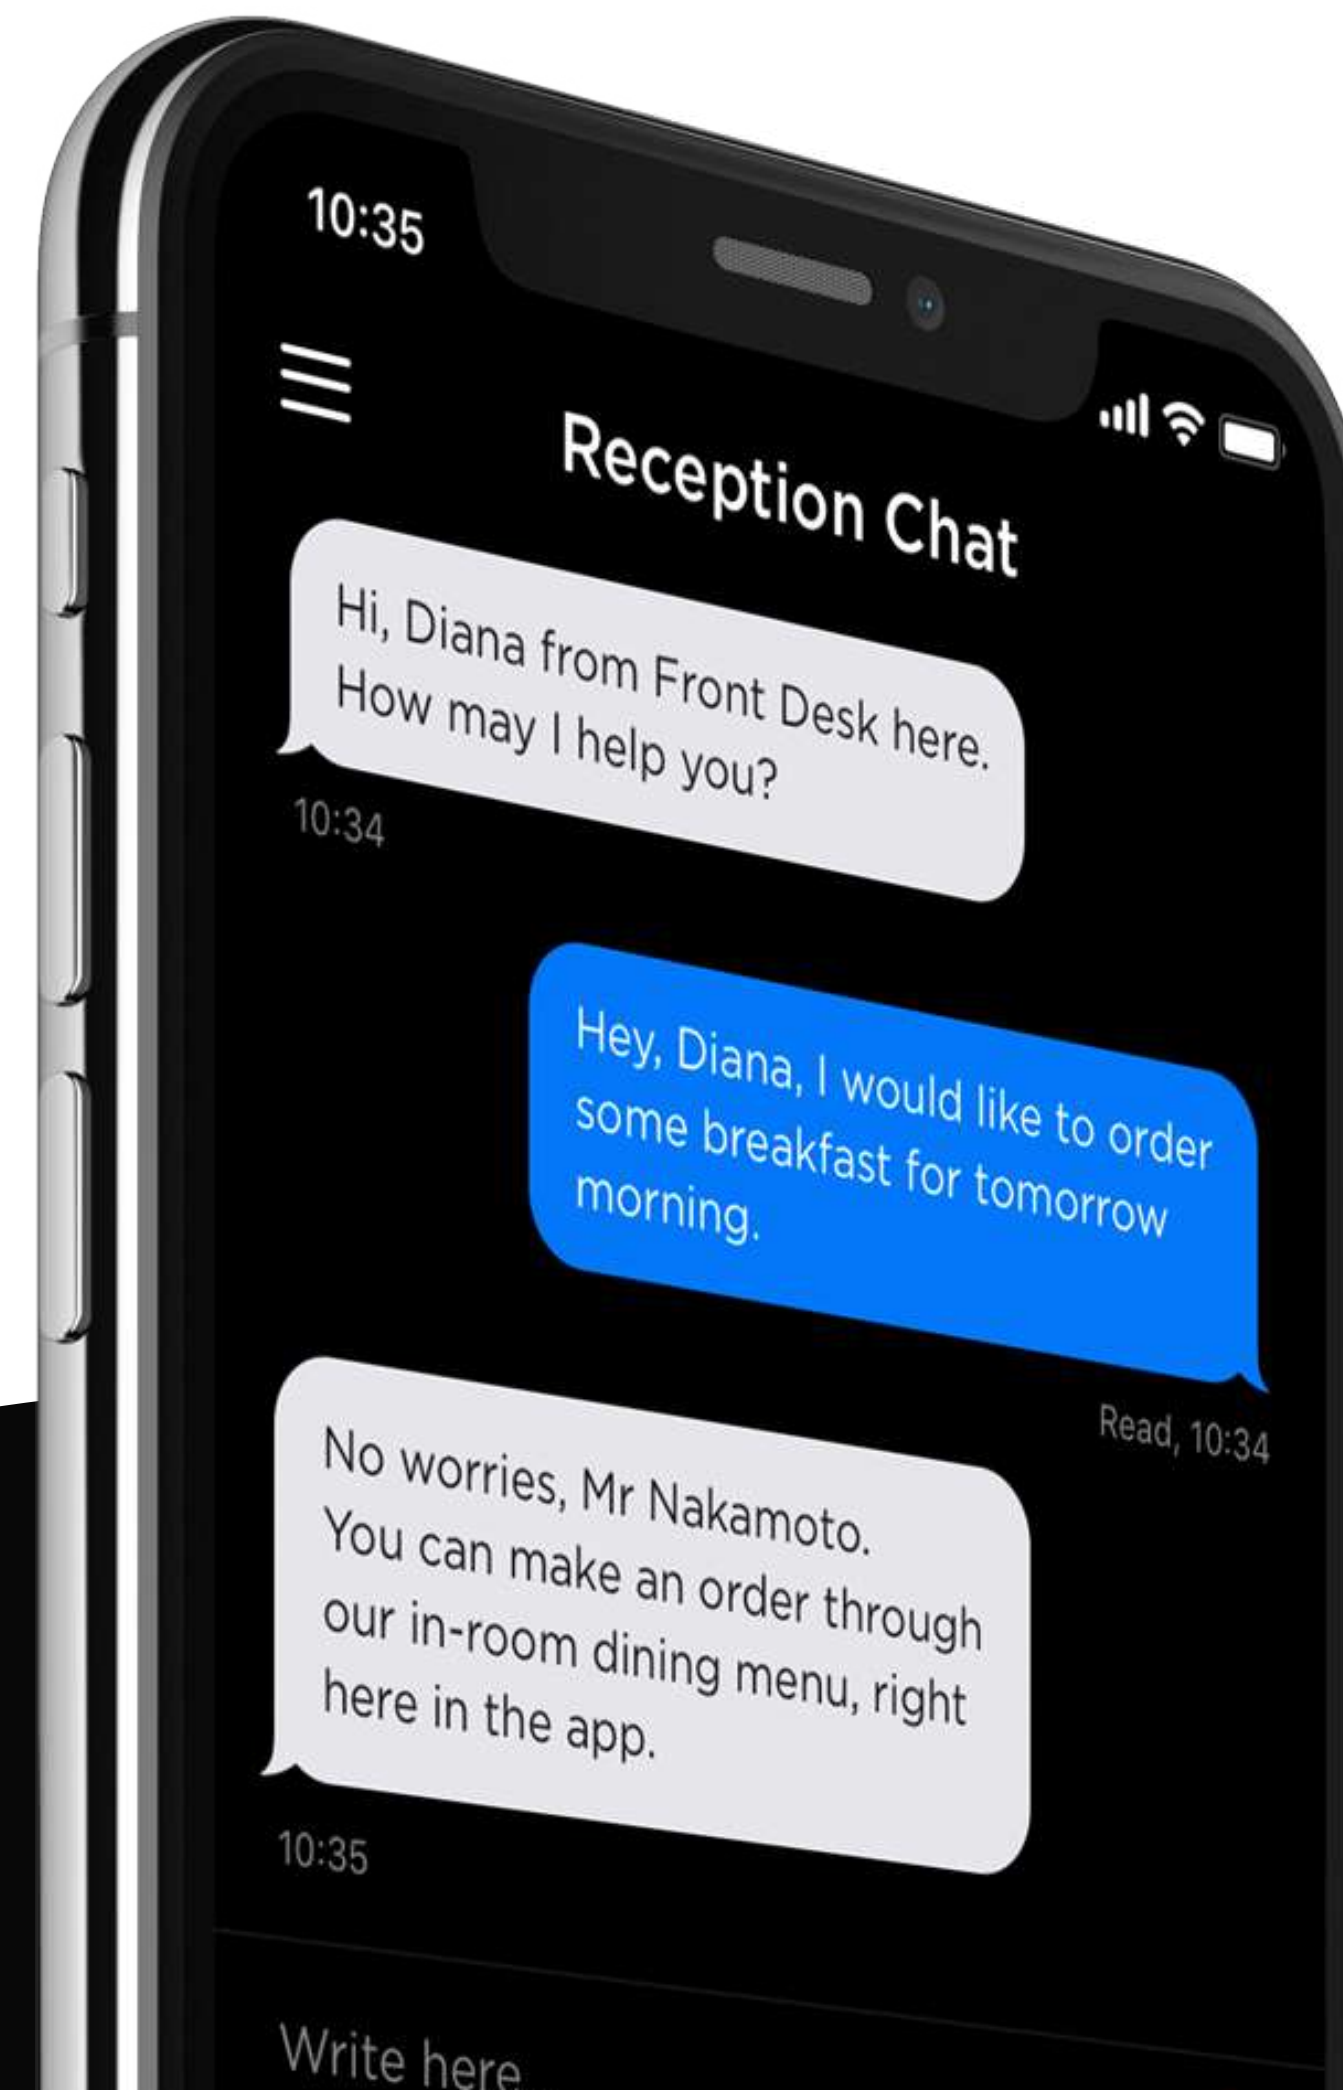

Sell & Advertise

- Via in-room TV and tablets, or personal smartphones, your guests can have access to any hotel service, allowing them to make the most of their stay.
- Visualise your offer: easily make changes to design, products, options, and prices in real time, without impacting your guests' use of the service.

Communicate

While more and more guests refrain from face-to-face communication with the hotel staff, hoteliers should implement these new methods in order to reach out to the guests via in-room TVs and tablets, or directly through the Hoteza Mobile app.

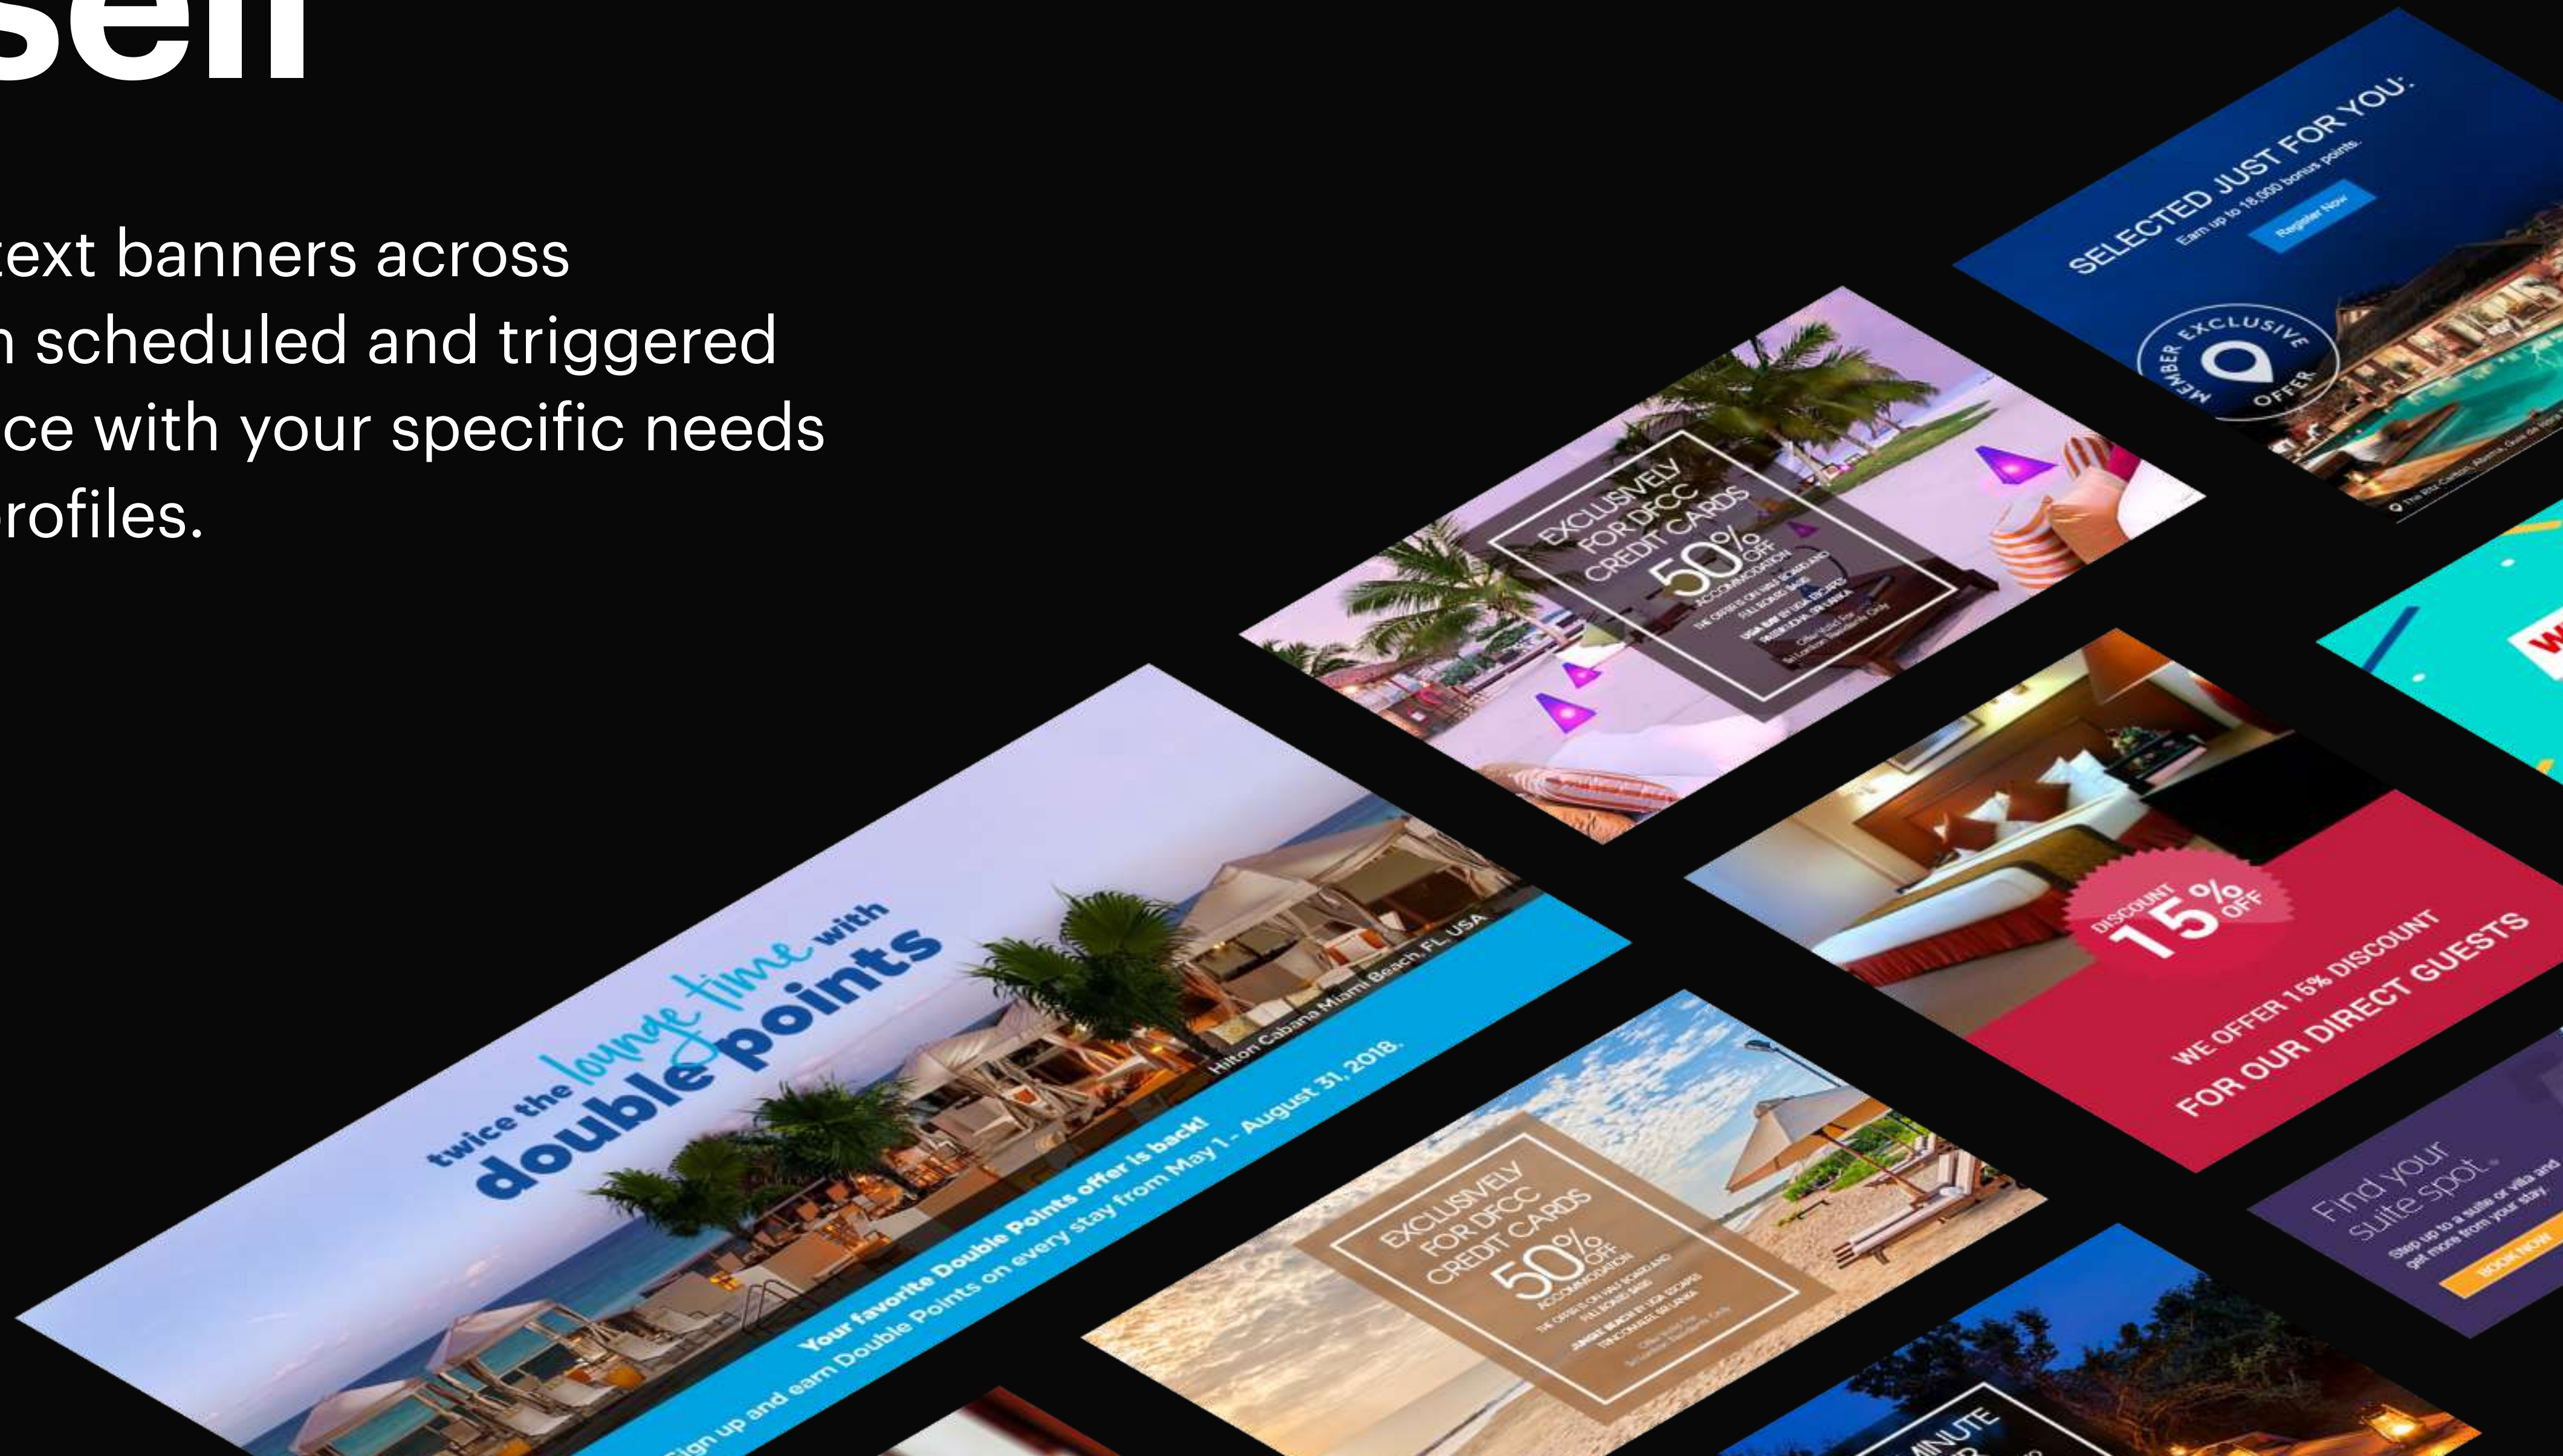

All world languages supported with no limitation!

Remove language barriers and enhance communication with the hotel for all nationalities.

Upsell

Image and text banners across the platform scheduled and triggered in accordance with your specific needs and guest profiles.

Get feedback

- The Feedback module allows you to understand and analyze your guests' needs, and helps you increase their satisfaction levels.
- It helps to intercept guests' negative feedback, and allows you to make amends before guests turn to the public on Tripadvisor, Booking.com, or social media.
- Encourage your guests to give you feedback through scheduled pop-up banners.

Impress

Now the guest is able to control any room systems – lights, temperature, or TV – with his in-room tablet or even his own smartphone, from any point of the room, thus bringing a wow factor to the guest experience.

Give guests a new, enjoyable experience and positive memories of the hotel.

Hotel benefits

- Enhance guest experience and satisfaction
- Visualise offers and marketing campaigns
- Generate new revenue through new channels
- Real-time management, analytics, and statistics
- Brand support and customisation

Guest benefits

- Multilingual support
- Personalised information at your fingertips
- Order room service, make reservations, and book appointments without making a call
- Connect your own device for a seamless entertainment experience
- Create an unforgettable personalised stay

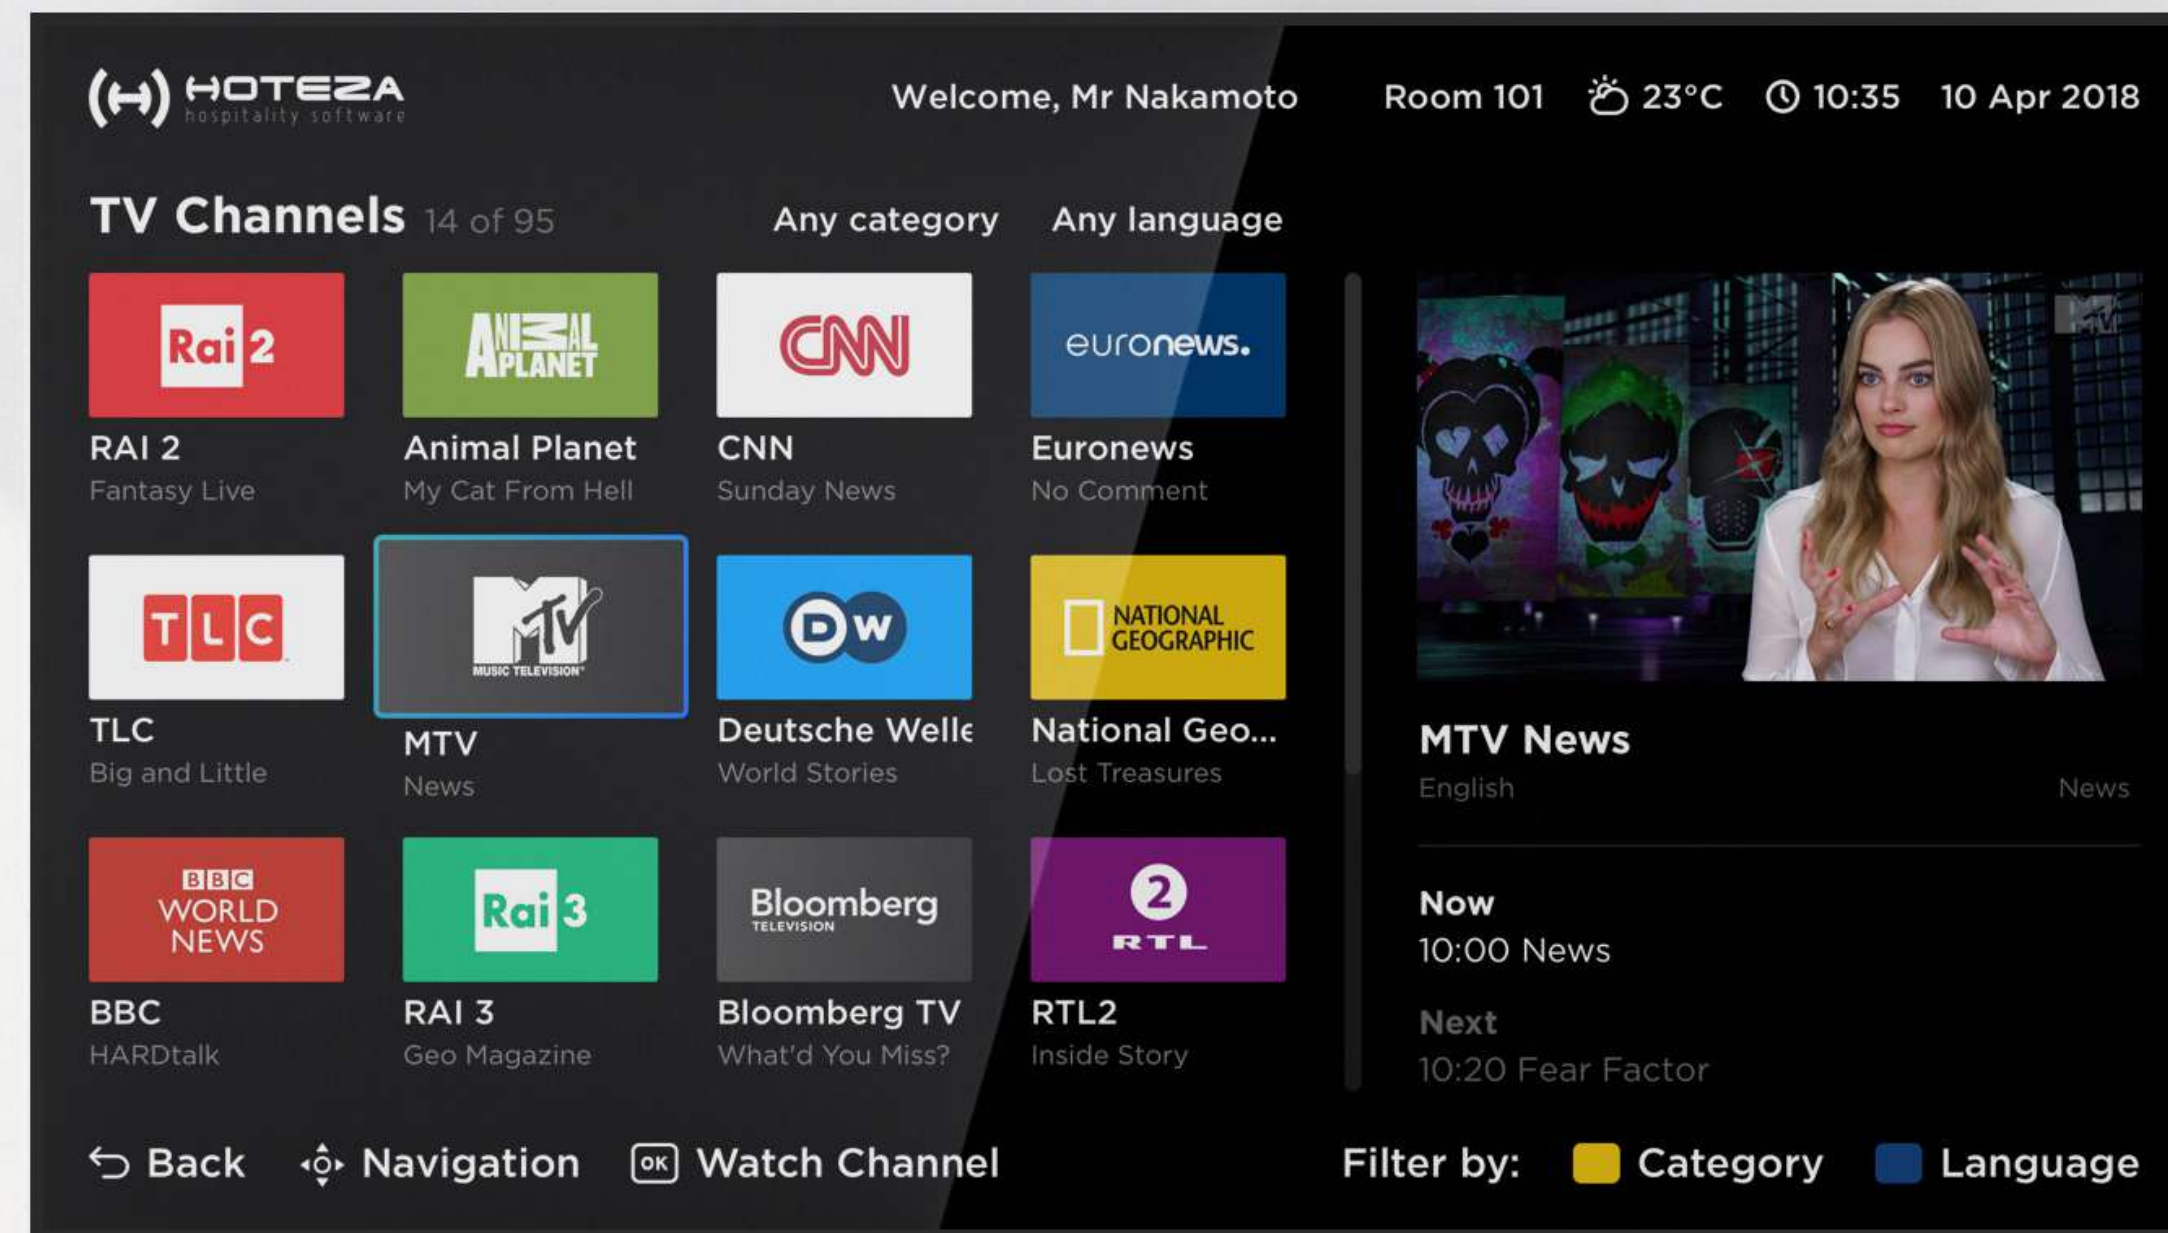

Statistics & Reports

- Detailed information on what is of most interest to your guests and which services are most used.
- Monitoring of how quickly and effectively requests are handled, and optimization of staff work.
- Analyzing guests' behavior and preferences in accordance with their guest profile (age, sex, nationality, etc.)

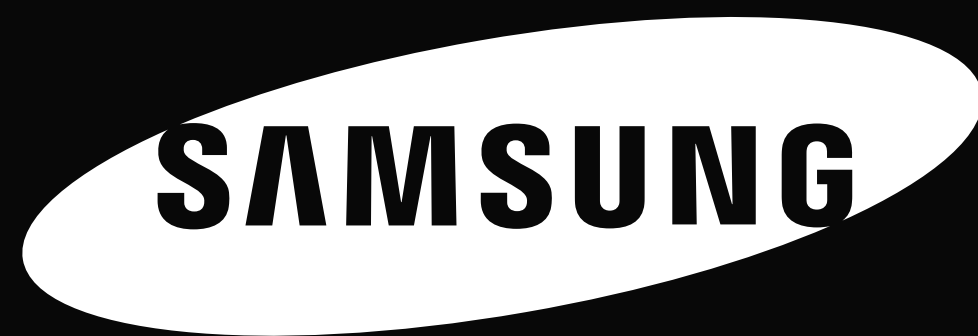

Hoteza TV

A set-top-free IPTV hosted solution that runs on hospitality Smart TVs.
Ease and flexibility, for every guest.

**Compatible with the most TV brands
available in the market**

PHILIPS

VESTEL

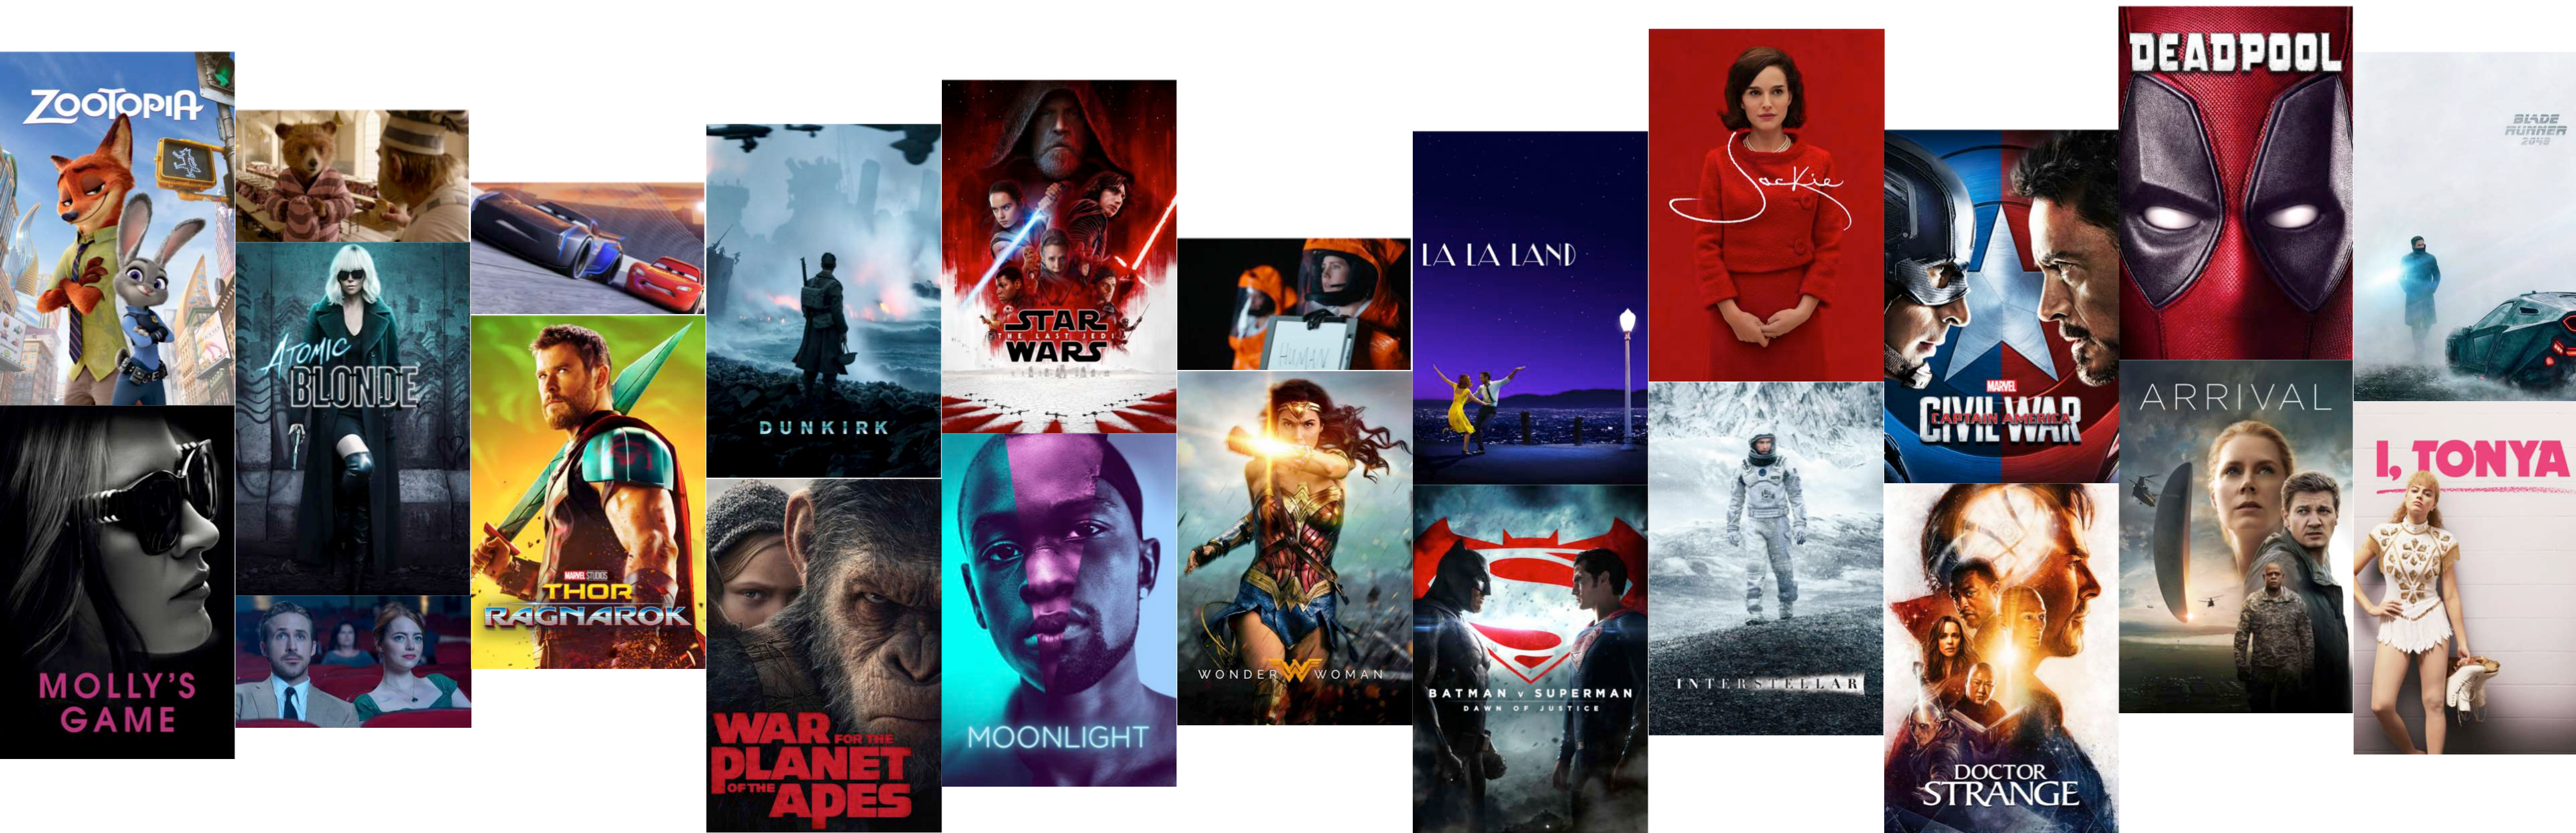

SONY

BANG & OLUFSEN
